OIL AND GAS CONSULTANTS LLC

Supply Of Proven Additives

NALCO Water
An Ecolab Company

We have proven additives produced by our **Strategic Partner NALCO WATER** for oil cargoes and fuels, to comply with the required quality specifications.

Treatment services with our proven additives support customers marketing their cargoes of petroleum and refined products, helping them meet quality specifications for cargoes at critical times. **Our company** professionals treat cargoes of petroleum products using stabilizers, corrosion inhibitors and other specialized additives.

OIL AND GAS CONSULTANTS LLC

Supply Of Proven Additives

NALCO Water
An Ecolab Company

Advantages of our additives

✓ Additives solve quality problems simply and quickly.
✓ Little volume of additive is used to solve the problem.
✓ They are applied in a short time and their results are immediate.
✓ Doesn't require a lot of planning.

Advantages of using our company in its treatment services with additives

✓ We have a culture of safety and we share natural clients: refineries and terminals.
✓ We have a global presence with our network of laboratories.
✓ We have a World class service.

OIL AND GAS CONSULTANTS LLC

List Of Our Proven Additives

NALCO Water
An Ecolab Company

- ✓ Hydrogen Sulfide Sequestrants (H2S)
- ✓ Cetane improvers.
- ✓ Freezing point reducers (Pour Point).
- ✓ Lubricity improvers.
- ✓ Compatibility studies.
- ✓ Conductivity improvers.
- ✓ Corrosion inhibitors.
- ✓ Oxidation stabilizers.
- ✓ Metal inhibitors.
- ✓ Colorants.
- ✓ Others.

OIL AND GAS CONSULTANTS LLC

Supply Of Primer Materials

Our company offers primer solutions for different areas such as industry and construction, for this reason we have different primer products that adapt to all types of surfaces and needs. These are some of them:

Maximum Penetration Fixing Primer. It is used to fix and beautify the paint on concrete, brick and sandstone facades, among others.

Water-Based Sealer Primer. It is indicated to prepare interior and exterior surfaces before applying a water-based paint, whether plastic, waterproofing, etc. This primer promotes adherence and coverage of the finish.

Multi-Adherent Water-Based Primer. It is a water-based adherent primer suitable for preparing surfaces of galvanized iron, aluminium, PVC, copper, etc. This product can be painted over with synthetic and water-based enamels, water-based paints, polyurethanes and epoxies.

OIL AND GAS CONSULTANTS LLC

Supply Of Primer Materials

Multi-Purpose Primer. It is indicated for surfaces that are difficult to adhere to, such as galvanized iron, copper, aluminum or PVC. It is suitable for subsequent painting with water-based paints, enamels (synthetic and water-based), epoxies, chlorinated rubbers and polyurethanes.

Acrylic sealer fixative. Water-based acrylic sealant especially effective for fixing walls on interior and exterior surfaces. It offers great penetration and all kinds of water-based paints (plastic, coatings, waterproofing, etc.) can be applied on it.
